Our team

The centre is staffed by an experienced cancer health care professional, supported by a team of trained volunteers. Many of our volunteers have personal experience of cancer.

Information

We have a comprehensive range of high quality information materials and a small library of books on all aspects of living with cancer. We also offer guided access to the internet and lists of relevant websites. If you need help finding information do ask one of our team. If it is not available from the centre we will do our best to find it for you.

Support

We can direct you to self help and support groups or offer you confidential emotional support on a one to one basis.

We can signpost you to other sources of professional support or counselling services.

Where to find us

The centre is located on the ground floor. When you enter the hospital turn left past the lifts and as you walk towards the oncology department you will see the centre on the right hand side.
