## 1.0 Introduction

Loreburn Housing Association has provided housing support to young people in Dumfries & Galloway for over 25 years and is very aware of local needs and regional service provision imbalances.

The Galloway Gateway will provide outdoor activity, team building, social prescribing, community action learning and event services focused in and around the Galloway area. The Galloway Gateway will also provide Foyer accommodation in Stranraer. Foyers offer an opportunity for young people, usually aged 16-25 who are in housing need, with personal development and other services. The opportunities will enable young people to learn, improve their health and wellbeing, increase their employability and develop leadership skills.

To develop and deliver the range of services the Galloway Gateway will work with a range of partner organisations.

## 2.0 Objectives

The objectives of the pilot are to bring partners together to deliver a short timescale controlled environment pilot and to conduct post pilot assessments to evaluate the impact and outcomes of the interventions. The pilot and the evaluations will contribute to the funding bids which will be made; also the pilot will generate an understanding of the partnership dynamics in this new health and social care integration model.

**4.0 Timescale**

The pilot period has been agreed between Loreburn and Let's Get Sporty of:

***Monday 29th August to Monday 26th September.***

The key objective of the pilot is to demonstrate and assess the partnership working and systems. It is accepted that the 4 week pilot is too short to have measurable health and employability outcomes. The 4 week period was chosen as an "optimum" to maintain the active engagement of both the Young People and recipient customers given the high level of engagement. If the pilot proves successful, it is our intention to support the continuation of the activities.

**5.0 Phased Intensity of Pilot Activity**

The intensity of the activity level will be phased from a low level at week 1 to a higher level at week 4. The intensity will be jointly agreed between participants prior to the start of the pilot.

**6.0 Locations**

**6.1 Reston**

Loreburn’s Supported Accommodation at Reston Stranraer will be the Office base for the pilot.

**6.2 Millburn Court**

Loreburn’s Sheltered Housing Development at Millburn Court, Stranraer will be the key venue for the activities. However activities can also be planned at the other Sheltered Developments which are Kirklea Place, Wigtown and Kings Court, Castle Douglas.

### 8. The Galloway Gateway and the Co-production Star

This pilot builds upon the ideals of the Co-production Star and its underlying principles of the four co's of:

- Co-commissioning
- Co-design
- Co-delivery
- Co-assessment

This pilot will follow the 5 step pathway to maximise the outcomes of the pilot. The 5 steps are:

Step Number	Action	Detail
1	<b>Map It</b>	Exploring existing and new forms of co-production
2	<b>Focus It</b>	Focus on those with the highest impact
3	<b>People It</b>	Using assets-based approaches
4	<b>Market It</b>	In order to bring about the behaviour change
5	<b>Grow It</b>	Within and beyond the organisation and local community

The graphic below details the co-production star.
