

## Appendix 1

### Summary of current IJB Directions, linked Annual Delivery Plan actions by Strategic Commissioning Intention

The Health and Social Care Directorate in collaboration with the Strategic Planning and Transformation Directorate have undertaken a mapping exercise to demonstrate the progress of Directions by mapping Directions to the Partnership's Annual Delivery Plan which is submitted on a quarterly basis to Scottish Government.

This paper outlines each Direction with associated delivery actions with the aim of providing assurance that the received Directions are being progressed. This process has highlighted areas of improvement in terms of the governance structure therefore a refresh of the current procedure is under review and we shall undertake audits against our governance processes to ensure adherence to process.

We do still have some areas that require clarification which is outlined as a suggested Direction to be issued however; the team are in the process of reviewing such suggested Directions and associated actions.

There are currently 30 open directions where we have applied a RAG Status in terms of progress; additionally we have made suggestions where Directions need closed due to being either historical or completed.

Directions	Status	
30	Initiating	4
	In Progress	12
	On Hold	1
	Close	12
	Not Progressed	1

A summary of the mapping is outlined below with only the open Directions and associated actions:

SCI1 People are supported to live independently at home and avoid crisis						
Direction	Description	Delivery Plan ID	Delivery Plan Action	Source	Tactical Priority	Status
IJB1701	Dumfries and Galloway Strategy for Mental Health 2017-2027	DP0148	Group Mental Health Activity	Direction	Improving Mental Health Resilience	In progress
		DP0150	Implementation of Distress Brief Interventions (DBI) model			
		DP0158	Mental Health Structured Clinical Management			
		DP0159	Perinatal Mental Health
